Please, use this sample, preparing abstracts.

Please, avoid nonstandard LaTeX packages; use the most simple commands and fonts. Don't use commands like `equation`, `section` and so on.

For numeration, use the command `eqno`. For example:

$$\int_0^1 f(x) dx = 0. \tag{1}$$

For definitions and theorems use the example:

Theorem 1. *Text.*

For bibliography, use the following example:

Bibliography

1. Pommerenke Ch. *Boundary behaviour of conformal maps*. Berlin: Springer. 1991.
2. Girela D. *On Bloch functions and gap series* // Publications Mathematiques. 1991. V. 35. P. 403–427.
