

**Список научных трудов Золотухиной Е.В. по теме диссертации
за последние 5 лет**

1. **Zolotukhina E.**, Gor'kov K., Dmitrieva V., Levchenko M., Silina Y. On the nature of the electrochemical response in mediated bioanodes with yeast cells // *Bioelectrochemistry*. – 2026. – Vol. 169. P. 109197.
2. Koch M., Müller F., Caparrotti H., Butyrskaya E.V., **Zolotukhina E.V.**, Erzina M., Silina Y.E. Mechanistic insights guiding the optimal design of Pd-NPs/PdOx electrocatalysts for dopamine-sensitive enzymatic biosensors // *Journal of Electroanalytical Chemistry*. – 2026. – V. 1011. P. 120072.
3. Istakova O.I., Konev D.V., E.V., **Zolotukhina E.V.**, Vorotyntsev M.A. Bromide crossover through various perfluorinated cation-exchange membranes in the presence of two cationic components in solution // *Journal of Electroanalytical Chemistry*. – 2025. – P. 119139.
4. Butyrskaya E.V., Korkmaz N., **Zolotukhina E.V.**, Kleinikova S.A., Koch M., Silina Y.E. Revealing the impact of surface composition of electrodeposited Cu and Ni nanoparticles on the specific electrooxidation of uric acid // *Electrochimica Acta*. – 2025. – T. 538. – C. 147012.
5. Kleinikova S.A., Gerasimova E.V., **Zolotukhina E.V.** Selective electrooxidation of acetaldehyde in aqueous ethanol solutions // *Russian Journal of Electrochemistry*. – 2025. – T. 61, № 12. – C. 889-896.
6. Konakov A.O., Talagaeva N.V., Gor'kov K.V., **Zolotukhina E.V.** Toward detection of formaldehyde on copper oxides formed from copper iodide-polypyrrole composite // *Russian Journal of Electrochemistry*. – 2024. – T. 60, № 12. – C. 1096-1104.
7. Silina Y.E., Butyrskaya E.V., Koch M., Fink-Straube C., Korkmaz N., Levchenko M.G., **Zolotukhina E.V.** Mechanistic aspects of glycerol oxidation on palladium electrocatalysts in model aqueous and fermentation media solutions // *Electrochimica Acta*. – 2024. – T. 497. – C. 144479.
8. Gerasimova E.V., Kleinikova S.A., Talagaeva N.V., Levchenko M.G., **Zolotukhina E.V.** New insight on the study of electrocatalytic oxidation of methanol on some Pt group metals: Important methodological aspects // *International Journal of Hydrogen Energy*. – 2023. – V. 48. – P. 34396.
9. **Zolotukhina E.V.**, Butyrskaya E.V., Koch M., Herbeck-Engel P., Levchenko M.G., Silina Y.E. First principles of hydrazine electrooxidation at oxide-free and oxide-based palladium electrodes in complex media // *Physical Chemistry Chemical Physics*. – 2023. – T. 25, № 14. – C. 9881-9893.
10. Kleinikova S.A., Levchenko M.G., Yalmaev A.B., Talagaeva N.V., Dremova N.N., Gerasimova E.V., **Zolotukhina E.V.** Some features of alcohols electrooxidation

process on Pd, Rh and PdRh catalysts // *Electrochimica Acta*. – 2022. – V.409. – P. 139998.
