PROGRAMME

IX International Scientific and Practical Conference

**TOURIST AND RECREATIONAL COMPLEX
IN THE SYSTEM OF REGIONAL DEVELOPMENT**

**Krasnodar
21-25 April 2021**

DEAR COLLEAGUES!

The annual international scientific and practical conference: "Tourist and recreational complex in the system of regional development" has found wide support among organizations of various levels. This year the conference is held in a hybrid format, including the use of remote participation technologies. The range of issues discussed is reflected in the tourism strategy of the regions of Russia and foreign countries, in the activities of organizations and enterprises of the tourism industry. The materials reflect the realities of the last period, difficult for the tourism industry.

The conference is held by the Federal State Budgetary Educational Institution of Higher Education "Kuban State University" in conjunction with Leopold-Franzens-Innsbruck University, with the Center of the Russian Geographical Society in Serbia, with the Abkhaz State University, the Interregional public organization "Association of graduates of geographical faculties", the Youth Club of the Russian Geographical Society in Krasnodar on the basis of Kuban State University, with the support of the Ministry of Resorts, Tourism and Olympic Heritage of the Krasnodar Region, the Ministry of Education and Science of the Krasnodar Region in order to determine the current trends in the development of the tourist and recreational complex, its role for the regions, taking into account the priority of innovative approaches in the economy, the development of international and domestic tourism, as well as the principles of sustainable development and rational use of natural resources.

The relevance of the topic indicated in the title of the conference is determined by the need to generalize the experience of scientists and practitioners in the development of tourism and recreation, taking into account the concept of sustainable development of territories, the formation of a marketing policy for a new tourist product and its image, exchange of experience in training personnel in the field of tourism, service and recreation.

The IX International Conference dedicated to the interstate and regional aspects of the development of the tourist and recreational complex is held in the Krasnodar Region, the main resort and recreational region of Russia, on the example of which the designated research topics are updated.

We express our gratitude to the participants of the international conference; we wish you good luck and further creative success! The fruitful work of the conference and the materials included in this publication create an impetus for the progressive development of the tourist and recreational complex of regions and states.

*M.Yu. Belikov, Director of the Institute of Geography,
Geology, Tourism and Service (IGGTaS) of the
Kuban State University, Head of the Department of
International Tourism and Management,
Doctor of Geographical Sciences, Professor,
Honored Employee of Kuban Resorts*
