

Unusual houses.

Forest Spiral

- 
- ▶ **This house was being built in 1998-2000 year. Lots of people live there, there are 105 flats. It was built by Fridrikh, who wanted to explain people how is it important to live in harmony with nature.**
 - ▶ **The peculiarity of this house in its windows. They are scattered on the walls in a chaotic manner.**

Brick Houses

Brick Houses

- ▶ **Such an idea occurred to Danish architect Pete Blom in 1977. According to his plan, there should be shops, kindergartens, schools, cafes on the lower floors, and living quarters in the cubic parts of the building. These houses are rotated 45 degrees and have 3 floors.**
- ▶ **One cube is used as a show cube museum. And some residents even offer tours of their homes.**

Ferdinand Cheval's
Ideal Palace

Ferdinand Cheval's Ideal Palace

- ▶ **This amazing house is a creation of a French postman. This is incredible, but without special education, Ferdinand Cheval conceived and embodied the work of a lifetime. He was building it from 1879 to 1912.**
- ▶ **He searched for his house and carefully selected stones. When building used only cement and wire. His home is a fusion of many styles and different cultures of the East and West.**
